

Pricing Sheet

Arkansas IT consulting, networks, security, cameras, and dependable support built for real-world use.

ONE-TIME SERVICES

Network & Security Assessment

\$1,250

Good first step for businesses that need clarity before making changes.

- network and security review
- backup and recovery review
- cleanup priorities
- short action plan

Cleanup & Hardening Project Starts at \$3,500

Typical fit for unstable, insecure, or poorly segmented office environments.

- network cleanup
- segmentation and firewall rules
- WiFi and infrastructure fixes
- security hardening
- documentation and handoff

MONTHLY SERVICES

Essential Care From \$1,250/mo

- monitoring
- updates
- vendor coordination
- backup checks
- basic support

Secure Operations From \$1,850/mo

- everything in Essential Care
- security hardening
- patch cadence
- backup oversight
- MFA and policy guidance
- periodic review

Multi-Site Operations From \$2,750/mo

- best for multi-location businesses
- higher-touch support needs
- camera and access complexity
- stronger operational oversight

Ventress Technologies helps Arkansas businesses clean up unstable, insecure, or poorly segmented networks so systems work reliably without ongoing drama.

Use project pricing for cleanup and transformation. Use monthly pricing when you are taking ongoing ownership and support responsibility.
