

EAGLE SUITES®

Daily Occupancy Executive Report

April 7, 2026 · Test version · Clean one-page morning brief

OCCUPIED ROOMS

1,779

PROPERTIES

20

STATUS

Success

Executive Summary

Today's occupied-room report was captured and parsed successfully. Current data supports occupied-room ranking by property, but does not yet include available-room, check-in, or check-out counts from Cloudbeds. Those additional source reports are still needed for the full one-page operational version.

Occupied Rooms by Property

PROPERTY	OCCUPIED ROOMS
AR - JC	32
OK - OTM	41
AR - BS	43
LA - BRB	45
LA - BRG	54
OK - OOA	168

Current sort shown here is illustrative from low occupied count to high occupied count. Final production version should sort by occupancy percentage once available-room data is subscribed and ingested.

Current Limitation

This test report uses today's occupied-room count data only. To produce the true final morning brief, the workflow still needs Cloudbeds reports for available rooms, check-ins, and check-outs.
