Selection and Source Notes

Hotels were auto-selected from today's live morning attention ranking using the same cross-signal scoring logic as the Morning Leadership Brief. That ranking weights weak occupancy, aged maintenance backlog, security pressure, and negative room-flow signals, then selects the top properties showing the most combined stress.

- ****LA - BRG**** — occupancy 78.2% (86 occupied room(s)) with 24 open available room(s); maintenance backlog 2 at 30+ day(s), 2 at 14+ day(s), oldest 31 day(s).
- ****AR - NLRG**** — occupancy 87.9% (181 occupied room(s)) with 25 open available room(s); maintenance backlog 0 at 30+ day(s), 31 at 14+ day(s), oldest 15 day(s); security risk score 2 across 1 issue signal(s).
- ****LA - BRB**** — occupancy 80.0% (44 occupied room(s)) with 11 open available room(s); security risk score 3 across 2 issue signal(s).

Occupancy fields use today's Cloudbeds morning pack. Guest balance detail uses the same in-house guest balance source used in the Morning Leadership Brief. Check-out balance detail uses today's Daily Check-Out with Balance source with a \$320 threshold. Maintenance items use today's AppFolio maintenance report dated 09/04/2026 and show only items at 7+ days old.

Rent Ready is using the current open-available proxy because the Vacant Room Report is not in the live morning pack.
