Need Quote from Bud to repair stairs, check all stairs and railings at NLR for

Pattern Intelligence

- Total open work orders in source report: **218**, with **24** marked urgent.
- Executive threshold (30+ days): **8** item(s) across **5** hotel(s).
- Regional threshold (14+ days): **35** item(s) across **13** hotel(s).
- Most concentrated aging backlog is at **Tulsa - E 52nd Street** with **10** item(s) currently at the 14+ day threshold.
- PTAC / HVAC-related items appear repeatedly in the aged backlog, with **3** aged item(s) tied to that category.

Recommended Actions

- Escalate any **urgent** item that reaches 14 days old into same-day regional review instead of allowing it to roll deeper into backlog.
- Assign one owner per hotel for aged work orders and require a daily status comment until closure.
- Separate recurring PTAC / HVAC parts shortages from normal room-turn tasks so material constraints do not hide in general backlog.
- For the executive view, keep the 30+ day section intentionally short and exception-based. If that section is empty, leadership should read that as backlog still recoverable.

Source Notes

- Source file: **Eagle Suites Maintenance**
- Assigned user filter in source: **All**
- Status scope: **New, Assigned, Scheduled, and Waiting**
- Aging thresholds used here: **30+ days for executive** and **14+ days for regional**
