Pattern Intelligence

- Security signal concentration is not random; today's issues are still clustering instead of spreading evenly across the portfolio.
- Most common issue classes currently are management concern (3), access control (2), lighting (2), guest/non-guest activity (1).
- This report is compiled from the hotel-level QRIDit submissions received for the report day by 7:30 AM, then archived so recurring site patterns can be tracked over time.
- **9901 Gwenadele Ave** has appeared on 4 of the last 7 daily security runs with 7 total issue signal(s).
